

My Journey With Testicular Cancer

As you know, Fr John O'Brien recently battled successfully with testicular cancer. He has now written a very interesting and informative 32-page booklet detailing all aspects of his journey with cancer. Copies are available from Ann in the Parish Office – they are free but a small donation – say five euro – would be appreciated to cover the cost of printing.

The booklet is very nicely printed, in colour, on light blue glossy paper, with several colour photographs and set out like a diary.
